## **ST0, SOUTH SUDAN UPDATE.**

Here is the latest information regarding the South Sudan DXpedition from Paul, N6PSE: "This afternoon, the DX Friends and the Intrepid-DX Group departed Juba and are now resting in Cairo before our long trips home to our respective countries.

We are very excited about how well the ST0R DXpedition went. The DX Friends and the Intrepid-DX Groups worked well together and really enjoyed our three weeks together. We are already talking about our next DXpedition/Adventure!

We are quiet happy that we met our goal of 120,000 QSOs and set a record for RTTY contacts during a new country activation. We wish to thank all of our donors and supporters. Ordinarily we thank our donors with an individual message, however the Internet in Juba was very unreliable and we were often without any connection to the outside world other than Amateur Radio.

This week, we held another meeting with the Engineering staff of the Ministry of Communications to guide them in their ITU prefix application. We are also providing them with guidance to develop and improve their Amateur Radio program and policies.

Team Co-Leader, Tony-EA5RM is also our QSL Manager, He will also investigate your "busted call" requests, if you email Tony directly. Here are our final statistics, watch for updates to the ST0R web-page:

121,286 QSO in ST0R Database.

27,994 Unique Callsigns. 176 DXCC. 40 CQ Zones.

First QSO at 22/07/2011 @ 15:36 | Last QSO at 10/08/2011 @ 07:01

CW: 55,458

SSB: 47,696

RTTY: 18,132 (New world Record)

Thank you, The ST0R Team."

hours after landing for about 10-12 days. The team will return to Buenaventura on Feb. 6, 2012. Operations are planned on 160 through 6 meters on CW, SSB and Digital modes.

We wish to thank Elecraft for the loan of seven K3 transceivers and five of the new KPA 500 amplifiers. RF Concepts (Alpha) has agreed to loan the team three Alpha 8410 amplifiers for use on the low bands and DX Engineering will supply most of the DXpedition antennas.

Thanks to N2OO and the SJDXA who have graciously agreed to handle QSL duties. You may recall the expert job they did for 3Y0X and K5D recently.

Contributions are being sought from DX Foundations, DX Clubs and individual DXers. Your financial assistance is kindly requested. You may contribute directly to DXARC (Colombia) or to K4UEE (North America), DJ9ZB (Europe), or JA1ELY (Asia/JA). See our website: [www.hk0na.com](http://www.hk0na.com) for further details on how you can help.

We plan periodic press releases with information of interest. Also, watch the website for breaking news.

Thanks,

Jorge Prieto, HK1R DXpedition Leader"

**DX CODE OF CONDUCT AND HOW TO WORK US**

FSDXA supports the DX Code of Conduct ([www.dx-code.org](http://www.dx-code.org)) and is committed to ensuring that all T32C team members operate to the highest standards. We have also, in conjunction with Wayne Mills N7NG and Steve Telenius-Lowe 9M6DXX, produced a document "How to Work Us" which can be downloaded from our website.

**INTERACTING ONLINE**

Internet access to and from Christmas Island is limited so we will not, for example, be watching the DX Cluster! If you have feedback for the expedition, this can be routed through Don G3BJ, via [deserving@fsdxa.com](mailto:deserving@fsdxa.com). Don will pass this feedback to the team on a daily basis. In the reverse direction, logs will be uploaded to ClubLog

([www.clublog.org](http://www.clublog.org)) on a daily basis and any news posted on the T32C website. We will also aim to send regular updates to the major bulletins.

**BROCHURE**

We mentioned last time that a PDF brochure about the expedition is downloadable from our website. We are pleased to say that this is available in Russian and Japanese as well as English.

**DVD**

The T32C DVD can be pre-ordered at the on-line shop on the T32C website. Full details are given there. In addition to the T32C story, the DVD will include the video made during the FSDXA DXpedition to St. Brandon Island (3B7C) in September 2007.

**WEBSITE**

As you have read above, much of what you need to know is on our extensive website. Do keep checking it for updates, both before and during the expedition: [www.t32c.com](http://www.t32c.com)
