ROTUMA

The team of experienced amateur and friends prepared a serious amateur expedition to the far island Rotuma, which belongs to the state Fiji, but it is very important for the amateur, because it counts as a separate country by DXCC list. Our goal is to activate the beautiful island of Rotuma in all amateur frequency from 1.8 MHz to 144 MHz and all amateur modes. Our team will work CW, SSB, FM, RTTY, SSTV, PSK etc...

TEAM is: YT1AD, K3LP, K1LZ, UA4HOX, PY5EG, WD5COV, SV2BFN, AA4NN, N6PSE, YT3WW, UA4HBW, RU4SU, JT1CO, JT1DO, LZ1VVV, HL5FUA, RW4NW, YT3W.

Landing permit and amateur radio license for CAL 3D2R already existing.

The team of experienced amateur and friends will gather at the 24th Fiji September 2011 and expect a departure from the port of Suva 25th In September 2011 around noon. The journey takes 36 hours. We expect the first activity at amateur frequencies on 27th September 2011 and will be active the next 10 days. Return to Fiji is expected 8. oktobra 2011 in the morning in the same harbor where we came from!! We hope that the whole amateur world will enjoy the amateur activity and QSO's with or team.

POZ, Acim YT3W
10. avgust 2011

HK0, MALPELO ISLAND

(Press Release). FOR IMMEDIATE RELEASE - "Malpelo DXpedition 2012 (August 5, 2011) Contact: bob@k4uee.com

The Malpelo 2012 DXpedition is pleased to announce that the HK0NA operating team is now complete with 16 operators. This is an international team of excellent operators, representing 8 different countries, and includes 3 members of the CQ DX Hall of Fame.

The team will depart from Buenaventura, Colombia on January 22, 2012, for the 235 mile trip to Malpelo. Depending on sea and landing conditions, we expect to be QRV within 36 hours after landing for about 10-12 days. The team will return to Buenaventura on Feb. 6, 2012. Operations are planned on 160 through 6 meters on CW, SSB and Digital modes.

We wish to thank Elecraft for the loan of seven K3 transceivers and five of the new KPA 500 amplifiers. RF Concepts (Alpha) has agreed to loan the team three Alpha 8410 amplifiers for use on the low bands and DX Engineering will supply most of the DXpedition antennas.

Thanks to N2OO and the SJDXA who have graciously agreed to handle QSL duties. You may recall the expert job they did for 3Y0X and K5D recently.

Contributions are being sought from DX Foundations, DX Clubs and individual DXers. Your financial assistance is kindly requested. You may contribute directly to DXARC (Colombia) or to K4UEE (North America), DJ9ZB (Europe), or JA1ELY (Asia/JA). See our website: www.hk0na.com for further details on how you can help.

We plan periodic press releases with information of interest. Also, watch the website for breaking news.

Thanks,

Jorge Prieto, HK1R DXpedition Leader"

DXPEDITION SEPTEMBER 16 - 26, 2011

www.4w6a.com

PRESS RELEASE NUMBER 5 - August 22, 2011

The 4W6A DXpedition is now less than one month away. Low-band operators will be pleased to hear that the team now has a Titanex V160E 87ft / 26.5m-high vertical antenna for use on 160m at 4W6A. The antenna was shipped from the manufacturers in Germany and has arrived in Darwin, Australia, from where it will be trans-shipped to Dili, Timor-Leste, later this month.

The team had previously planned to use an 18m Spiderbeam pole as the support for a 160m inverted-L. With the arrival of the Titanex vertical, the 18m Spiderbeam pole will now be used for a full-size 80m quarter-wave folded monopole vertical instead.

Other antennas include monoband quarter-wave verticals for 40, 30 and 17m kindly sponsored by Tony Burt, VK3TZ, of Rippletech Electronics in Australia, a 2-element phased array for 40m, an Australian-made Com-an-tena vertical for 10, 15 and 20m, a Butternut HF6V, a 15m vertical dipole, and a G3TXQ Hexbeam made by team member Ant David, MW0JZE. All the antennas will be located on the beach within a few metres of the ocean.

Thanks to the generous sponsorship received from many DX foundations, clubs and individual DXers, it has become possible to ship much of the heavier equipment to Dili, Timor-Leste, in advance of the expedition. The team is very grateful to all DX groups, companies and individuals that have sponsored the expedition. All are listed with thanks on the 4W6A website at www.4w6a.com/sponsors

4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor), from 16 to 26 September 2011. Activity will be on all bands 10 to 160 metres, using CW, SSB and RTTY with up to four stations simultaneously. The QSL manager is M0URX, direct (SAE plus 1 IRC / \$2), via the bureau, or LoTW. The entire log will be uploaded to LoTW as quickly as possible after the end of the operation or, if possible, also during the DXpedition. Direct or bureau QSLs may also be requested using the M0URX Online QSL Request Service (OQRS) at <http://m0urx.com/oqrs> (there is also a link from the 4W6A website at www.4w6a.com/qsq-information).

73,
Steve, 9M6DXX
4W6A Team Member
