ROTUMA

Press Release: DXpedition to Rotuma as 3D2R

After many months of careful planning, we are pleased to announce that our preparations for a large multi-national DXpedition to Rotuma are going according to plan.

Rotuma is located in the South Pacific Ocean and is #32 on Club Log's most wanted DXCC list. The Team is meeting in Lami Bay, Suva on September 22nd and departing by ship to Rotuma on September 25th. The Team expects to arrive in Rotuma and become active on Tuesday, September 27th. We will complete our DX-pedition on October 7th, 2011.

The main goals of this DXpedition are to work every amateur radio operator who needs Rotuma for a new DXCC country. In addition, we will be active on all bands from 1.8 MHz to 144 MHz, including the 5MHz and 50 MHz bands.

In addition to CW, SSB and RTTY we will be active on PSK, SSTV and EME. Special attention will be made to work far away stations such as Europe and Africa during those periods when propagation permits. The propagation window for EU and Africa is very brief at times and signals may be weak, so we ask everyone in the honored HAM SPIRIT to stand by when asked so that we may fulfill this need. Our destination will have a wide range of options and possibilities.

We plan to upload our logs on a daily basis to our on-line log. We will upload to LOTW approximately six months following the DXpedition.

We wish everyone good propagation and we hope that you enjoy working the 3D2R Team.

At this time, we are seeking additional Club and Individual Sponsors to help us defray the costs of carrying out this DXpedition. Our official website is

<http://www.yt1ad.info/3d2r/index.html>

3D2R Team

HK0, MALPELO ISLAND

(Press Release). FOR IMMEDIATE RELEASE - "Malpelo DXpedition 2012 (August 5, 2011) Contact: bob@k4uee.com

The Malpelo 2012 DXpedition is pleased to announce that the HK0NA operating team is now complete with 16 operators. This is an international team of excellent operators, representing 8 different countries, and includes 3 members of the CQ DX Hall of Fame.

The team will depart from Buenaventura, Colombia on January 22, 2012, for the 235 mile trip to Malpelo. Depending on sea and landing conditions, we expect to be QRV within 36 hours after landing for about 10-12 days. The team will return to Buenaventura on Feb. 6, 2012. Operations are planned on 160 through 6 meters on CW, SSB and Digital modes.

We wish to thank Elecraft for the loan of seven K3 transceivers and five of the new KPA 500 amplifiers. RF Concepts (Alpha) has agreed to loan the team three Alpha 8410 amplifiers for use on the low bands and DX Engineering will supply most of the DXpedition antennas.

Thanks to N2OO and the SJDXA who have graciously agreed to handle QSL duties. You may recall the expert job they did for 3Y0X and K5D recently.

Contributions are being sought from DX Foundations, DX Clubs and individual DXers. Your financial assistance is kindly requested. You may contribute directly to DXARC (Colombia) or to K4UEE (North America), DJ9ZB (Europe), or JA1ELY (Asia/JA). See our website: www.hk0na.com for further details on how you can help.

We plan periodic press releases with information of interest. Also, watch the website for breaking news.

Thanks,

Jorge Prieto, HK1R DXpedition Leader''

FSDXA Christmas Island DXpedition

Bulletin No.4

It's been one of those years. Spratly and Jarvis had to be postponed and now our own, T32C, expedition has hit some logistical problems in that our container with its 6 tonnes of kit got as far as T30 (Tarawa), but onward shipping to T32 has proved impossible, despite our best efforts and promises from those involved in 3D2, T30 and T32. The ship that was due to bring our container from Tarawa has broken down and is being towed to Fiji for repairs.

WHAT NOW

So what happens now? The answer is that we will go ahead anyway. The team is complete and set to go, the hotel is expecting us, and the sunspots seem to be on the increase.

Thanks to Yaesu, our Global Sponsor, we will have ten FT-450D radios, which we will hand carry to T32, along with several lightweight linears. Yaesu's support has been absolutely outstanding. We will also take enough hardware to set up verticals and vertical arrays for all bands 160 through 10. It may even be possible to run multiple stations on some bands, though not to the extent that we had previously planned. All our computer equipment was to be hand-carried in any case, so daily log updates to ClubLog (see Bulletin 3) will be unaffected. Unfortunately, unless our container makes an unlikely late arrival on the island, 6m EME will have to be abandoned, and we will not have the 4-square arrays for 30 and 40. But we will do our best to set up phased systems or other antenna configurations to achieve gain, especially towards Europe where we will continue to focus our efforts.

TIMINGS

The expedition dates are unaffected, but we cannot realistically expect to have stations running on nine bands by the first weekend, though we will aim to be on some bands, at least. As we will not have everything pre-kitted, there will be a lot of

NBR. 456

building and configuration work to do once we arrive at Christmas. The good news is that we are there for nearly four weeks and will be operating through four weekends, so there should be plenty of opportunity to get into our log.

WEBSITE

As always, but especially in these new circumstances, the trick is to keep a close eye on our website. Do keep checking it for updates, both before and during the expedition: www.t32c.com You will also find details there of how to interact with us once we start operations – your feedback will be especially important so that we can maximise every band opening.

Don Field G3XTT, (don.field@gmail.com)
