FW0/TW0, WALLIS & FUTUNA (Update)

Laci, HA0NAR, and two other operators will be active as FW0R from Uvea Island (aka Wallis, OC-054, DIFO FW-001, WLOTA 0389, WW Loc. AH16VS) next year (2012) between January 25th and February 23rd. Laci, HA0NAR, reported this past week: "Exactly one month from now, the FW0R team will start its journey to Wallis and Futuna Islands, with the first stop in Los Angeles for 2 days before taking an airplane to Nadi (Fiji), the closest international airport to Wallis. From there, we will fly to Wallis and expect to start TX around 25th of January 2012. We would like to remind you that the entire trip and stay on the island is paid in full by each of the operators and that any contribution/support will help us to reduce the high logistical costs. We would like to thank all individuals and especially the Foundations and Clubs as well as equipment suppliers that already support us. Our PayPal account is:

ha0nar@hotmail.com

Additionally, we plan to be active from Futuna Island (IOTA OC-118) with the callsign TW0F. QSL for both FW0R and TW0F are via Laci HA0NAR." For more info, visit: <http://www.ha0nar.hu>

Malyj Vysotskij (R1MV)

The day of deletion has now been confirmed: Finnish and Russian ambassadors met today, January 17th and exchanged the documents signed by the presidents of both countries. The new agreement of the lease of Saimaa Channel will be in force one month from today - February 17th. As the new agreement does not include Malyj Vysotskij (R1MV ...), the island will be deleted from the DXCC-list the day before, February 16th 2012.

This is, of course, subject to the decision of ARRL DXCC Committee.

It's unlikely that any DX pedition will come on from the island before the deletion, although our Russian friends would have a possibility to do it. 73

Jari, OH2BU

VP6, PITCAIRN ISLAND

VP6T Dxpedition from Pitcairn Island (OC-044, CQ Zone 32) between January 20th and February 4th. This past week, the VP6T Web page reported on January 11th [edited]: "Since we got many requests asking for 6m operations, EME, SSTV, 60m, etc .. we would like to clarify the following:

We are a small team of 5 operators, and we were very limited in baggage weight and size, mainly on the Air Tahiti domestic flight. So we had to make choices. While most of us are 6m operators, we had decided to not spend much of our precious time and effort on this band.

No antenna will be taken for 6m, as well as no time slot is booked for 6m in our operation schedule (it will already be very hard to keep 3 HFstations running 24/7 with 5 operators).

On the other side, we are aware there is potentially an old 5 element Yagi 6m antenna (left by OH2BR probably). If time permits, we will try to locate it and if it is still in good shape after 12 years spent on the island, then we may install it and make some tests on 6m, using conventional modes (CW and/or SSB). In that case, it will be announced on the web site, or on air by the HF operators.

So to summarize, 6m operation from Pitcairn has not been on our agendasince the early planning stage, as well as all others bands/modes that are not specified on this web site. Thank you for your understanding." The QSL Manager is Nigel, G3TXF. In addition to the usual routes (Direct QSLing, QSLing via the Bureau and E-mail requests for Bureau cards to "QSL at G3TXF dot com"), they will also be using the new "Online QSL Request Service (OQRS) provided

ARRL & CQ Sign Agreement to Provide ARRL's Logbook of The World Support for CQ's Awards

(Hicksville, NY and Newington, CT - Jan. 24, 2012) - CQ Communications, Inc. (CQ) and ARRL - the national association for Amateur Radio, have signed an agreement to begin providing support for CQ-sponsored operating awards by the ARRL's Logbook of the World (LoTW) electronic confirmation system.. The agreement was announced jointly today by ARRL Chief Operating Officer Harold Kramer, WJ1B, and CQ Communications President Richard Ross, K2MGA.

CQ's awards will be the first non-ARRL awards supported by LoTW and will be phased in, beginning with the CQ WPX award. Additional CQ awards will follow. The ARRL's LoTW system, an interactive database recording contacts between radio amateurs was created in 2003 and has been adopted by 47,500 radio "hams" worldwide. It already has records of 400 million contacts and grows weekly. The target date for beginning LoTW support for WPX is April 1, 2012. Amateurs will be able to use LoTW logs to generate lists of confirmed contacts to be submitted for WPX credit. Standard LoTW credit fees and CQ award fees will apply.

ARRL Chief Executive Officer David Sumner, K1ZZ, observed that this step gives radio amateurs throughout the world an inexpensive and convenient means of gaining credits toward CQ's popular

operating awards. "LoTW has significantly increased interest and participation in the ARRL's DXCC, Worked All States and VUCC awards programs. We anticipate a similarly positive response to the addition of the CQ WPX award. Amateurs will be able to spend more time operating and less time chasing QSL cards."

CQ President Richard Ross, K2MGA, said he is very pleased to be able to move forward with Logbook support for CQ awards. "We have had excellent results with electronic confirmations for several years," he said, "and I am glad that we are now able to begin expanding that convenience to those participants in our award programs who use Logbook of the World. We look forward to a smooth launch for WPX, and to the expansion of LoTW support to include the rest of our award programs as well."

ARRL (www.arrl.org) is the national association for Amateur Radio in the United States and publisher of its membership journal QST. CQ Communications, Inc. (www.cqcomm.com) is publisher of CQ Amateur Radio and several other magazines. There are currently over 700,000 Amateur Radio licensees in the USA and approximately 2.5 million worldwide.
