## ARRL Announces New DXCC Fee Structure!

Effective Monday, April 2nd, the way DXCC fees are assessed will change. These changes will include both rate increases and rate decreases. There are several reasons for the fee change:

- Promoting more frequent applications
- Removing the "hybrid application" problem
- Simplifying the price structure for DXCC
- Raising the rates slightly to help offset ARRL's increased costs
- Improving customer service

Here are "some" of the interesting changes to take place:

- There are no limits on the number of applications that can be submitted. There will be no more surcharges added to the second or subsequent applications.

Dx Italia News **482 - Mar 23 2012** by I2MQP Mario

To receive this bulletin please send a message to [marioi2mqp@alice.it](mailto:marioi2mqp@alice.it).

Previous issues at [www.marioi2mqp.it](http://www.marioi2mqp.it)

Visit the qsl gallery at <http://www.marioi2mqp.it/qsl-gallery.asp>

- A DXCC application submitted using LoTW will have an application fee of 5 USDs for ARRL members and 10 USDs for non-members. There are no limits on the number of QSOs that can be included as part of a LoTW application. Each QSO used in LoTW for an award will cost 12 cents, down from a minimum of 15 cents in 2011. They will no longer sell LoTW "credits" in bulk. If you have credits stored, you will still be able to use them.
- The free DXCC Yearbook that was sent to ARRL members will now be made available electronically, and it will appear in an edition of Digital QST. For those who want a League-printed Yearbook, it will still be available at a modest cost.

To read the complete press release and details of all the changes, go to: <http://www.arrl.org/news/view/arrl-announces-new-dxcc-fee-structure>

## **DXCC ONLINE (Web Tool!).**

Over the past several years, the DXCC has been working on a system where applicants would enter QSO data from their QSLs into a digital DXCC application. With DXCC staff's data entry time reduced, they could charge less than a traditional application, process more applications in the same time, and provide better customer service. Well word has come out that their programmers are near completion and are currently beta-testing the system which will be called "Online DXCC". The following is a brief description of this system and the Card Checker's role: "For the most part, the DXCC Card Checker's job hasn't changed much. After the applicant has typed-in the QSO data from the QSLs (or loaded-in an ADIF file that comes from a logging program), he/she will print the application and either bring it to a DXCC Card Checker or mail it and the cards to HQ, like normal. They will still heavily rely on a DXCC Card Checker's expertise and knowledge to inspect the QSL cards and ensure that the data that has been entered and printed by the applicant is correct. The DXCC Card Checker will still need to carefully mark changes on the printout. When all is done, the DXCC Card Checker will sign-off on the application and mail it to HQ, as before."

What is different is that the applicant will not have to organize cards by band and mode, but instead can simply enter the data from each card in any order they are found. The applicant must leave the cards in the same order in which they are entered, as it obviously that makes it easy for the DXCC Card Checker to work through the cards and compare against the record sheet. If a QSL has two or more QSOs listed, and the applicant

DX Italia News **482 - Mar 23 2012** by I2MQP Mario

needs them all, he/she no longer must put these cards at the back of the application.

Also new is that there is an option for the applicant to pay for the application with a credit card inside "Online DXCC". Unfortunately, there is no easy way to have the applicant pay electronically for the DXCC Card Checker's mailing expense, so they will still have to collect cash for mailing in the same manner as they do now. The "Online DXCC" forms themselves are representations of the paper forms to which everyone is currently accustomed too. The "Online DXCC" is expected to possibly be available in less than a month. Be looking for more details to be forthcoming.

## **Contest, mainly from ARRL Bulletin & WA7BNM**
