NBR. **559**

team's equipment is now in hand and at the Atlanta staging area or undergoing final testing in preparation for shipment to Atlanta. Gear will soon be sorted into contents bound for the Mafaf operating location and the Antonelli operating location (see our website page: <http://www.amsterdamdx.org/ft5zm-operating-sites/>).

There will be no guess work about what piece of equipment goes to which site when we land. Efficiency means more time on the air and more QSO's. Bob, N2OO, has been working on our maritime mobile operation to provide QSO's with some rare grids between Australia and Amsterdam Island. Arnie, N6HC, is our team doctor and has finalized his medical resources. Jerry, WB9Z, has been hard at work with his team cutting radials and coax, thousands of feet of each, but the job is now done.

Bob, K4UEE, our chief financial officer has been watching our income and expenses and trying to be as frugal as possible without compromising our ability to generate lots of QSO's. Craig, K9CT, has been putting our K3's and bandpass filters through extensive testing and has worked with Neil, VA7DX; Gregg, W6IZT; and George, N4GRN, on our network and logging protocol. Erling, LA6VM, and Andy, UA3AB, have been working hard to inform Europeans of our progress and peak their interest, while VE7CT beats the drum in Canada. Michel, FM5CD, has worked closely with the French authorities, answering their questions and Nodir, EY8MM, has focused on our low band capabilities. Jorge, HK1R, has worked hard to generate interest in South America.

ZM90DX

Press Release #1

After World War 1 and with the banishment of radio amateurs to the supposedly "useless shorter wavelengths" an amazing period of radio exploration took place. Amateurs all over the globe soon learnt that far from being useless these wavelengths seem to allow communication over long distances. Amateurs in ZL were at the forefront of this activity with the first ZL to VK QSO in April 1923, and then world record distance QSOs between ZL and Argentina in May 1924, ZL and California in September 1924, ZL and Connecticut on the US east coast just weeks later, and the ultimate Z4AA Frank Bell's QSO with Cecil Goyder G2SZ in London on 18 October 1924.

To commemorate the 90th anniversary of the record breaking activities of these early pioneers of Amateur Radio, ZM90DX will be on the air between 1 October 2013 and 31

Sept 13 2013

NBR. 559

October 2014 on all bands 1.8 MHz to 1.2 GHz and beyond in all modes. Activated by the Kiwi DX Group, an informal group of DXers and contest enthusiasts, ZM90DX will be used around New Zealand and a special commemorative QSL card will be available as well as an award program for contacts with ZL during this period.

Not only will ZM90DX be active at expected times and on expected bands, but in the spirit of those early pioneers the ZM90DX operators will also be calling CQ on bands and in directions one may not necessarily expect with the intention of exploring the boundaries of radio propagation.

This will be an unparalleled opportunity for Amateurs all over the world to work ZL while celebrating the exploits of those early trail blazers whose work paved the way for radio communications as we know it today.

Further details can be found on <http://www.zm90dx.com/>.

Note: "Please remember this is a ZL based activity NOT ZL9 Campbell & Auckland Islands".

ENSURE your logging software logs ZM90DX correctly as ZL and NOT ZL9, Auckland / Campbell Islands

To update the Country File for your logging software please visit:
