FT4T, TROMELIN (Press Release, August 26th)

F5CWU, sent out and posted on the FT4TA Web page: “One more thing. by Flo—

In just a month, we'll leave Europe for Tromelin. Except for a major event, this communication should be the last before departure.

It seems important to us to point out the objectives to you that we fixed ourselves.

Initially, we will seek to maximize the number of contacts to give everyone a chance whatever their geographical position. To achieve this goal, we should be active quite often on the most prolific bands. Our operators will make their best to exploit the propagation windows towards certain areas. The collaboration of all will be essential not to waste time, stupidly.

Our second priority will be activity on the low bands, with all the difficulties that it generates. Let's hope that our equipment and effort will provide good results.

Once a day, the logs of FT4TA will be uploaded on ClubLog by a satellite data connection. The leaderboard will not be activated. (to discourage unrestrained race). 'In addition, we point out that neither the pilots, nor the QSL Manager will have access to the log during the operation. Useless to drown them under e-mails. In case of doubt, please reiterate the contact.'

The dates of our operation will be concomitant with those of the philatelic exhibition of Paris. In addition to a presentation of our activity, the stamps celebrating the 60 years of the 1st amateur radio activity from Tromelin will be presented and put on sale by the TAAF. We are really happy to have taken part in its development and proud to see our activity highlighted.

We are pleased to announce that all the QSL cards requests (direct - OQRS - donors) will have this stamp applied. Envelopes will be then entrusted to the TAAF which will have the responsibility to convey, cover and affix the philatelic marks from the island of Tromelin, these stamps being valid only from the French Southern and Antarctic lands.

It may slightly lengthen the answer time but it offers the opportunity of having your QSL and a wonderful philatelic envelope.

Lastly, keep in mind that the conditions under which the expedition will be realized will be testing, more especially as the team is small. We will be lodged by the TAAF. Besides the radio operation, a certain number of additional tasks will be carried out by the team to assist our hosts, which is legitimate in a community life. We could per moment be obliged to temporarily stop the transmissions of one or more stations for a short period.

You can right now find all details on our website. Throughout the stay, our team in France will keep the site updated with news as well as photographs transmitted by satellite with the logs.

Thank you for your encouragements and your support..... The team FT4TA”

Just as a reminder! -- More details and updates can be found on the following media and URLs Web pages at:
